DK **Bemærk venligst at disse bordben ikke er forsynet med filtpuder el. lignende til beskyttelse af gulv!**

Vi anbefaler at du anskaffer sådanne filtpuder el. lignende, for at undgå at benene forårsager ridser eller trykmærker på gulvet.

I tilfælde af at dit gulv måtte lide skade, kan leverandøren ikke holdes ansvarlig.

GB **Please notice that these legs has no foot caps or felt pads to protect the floor!**

We strongly recommend that you purchase such products to avoid scratches/pressure marks on the floors.

In case of damage to your floor, the supplier of this product cannot be hold responsible.

NB: Bemærk venligst at tegningerne af dette bord, blot viser én størrelse, og at placeringen af benene vil variere på de forskellige bordstørrelser. Hvis dit bord har 2 muligheder for ben-plasering, og du ønsker at skifte benposition, skal du skrue de bolte af, der forbinder benblokken til bordpladen, og den ekstra træplade. OBS – sørg for, at bordpladen ligger på en flad, lige overflade, før du skruer træpladen af.

NB: Please note that the drawings of this table only show one size and that the placement of the legs will vary on the different table sizes. If your table has 2 options for leg positioning, and you prepare to change leg position, you should unscrew the bolts joining the leg block to the table top, and additional wooden plate. Attention – make sure the table top are on flat straight surface, before unscrewing the wooden plate.

FSC® 100% certified
wood.

Step 1

DK Saml benet ved at skrue #A fast på den viste position, med hullet drejet så det peger opad. #B indsættes med hullet drejet mod #A, og med gevindstykket udad. Når de to trædele er skubbet sammen, indsættes #C i #B - og

GB Assemble the leg by screwing #A to the position shown, with the hole turned so that it points upwards. Insert #B with the hole turned towards #A, and with the threaded piece facing outwards. When the two wooden parts have been pushed together, insert #C in #B - and tighten.

wood.

Step 2

DK Placer bordpladen med undersiden opad, på et jævnt og rent underlag (et tæppe el. lignende). Er bordet forberedt til 2 ben-placeringer, kan du vælge den der passer bedst til det antal stole du ønsker at sætte om bordet.

GB Place the tabletop upside down on a smooth and clean surface (fx a blanket). If the table is prepared for 2 leg positions, you can choose the one that best suits the number of chairs you want to put around the table.

Step 3

DK Fastgør benet til bordpladen, ved at skrue #A fast på den viste position, med hullet drejet, så det peger mod benet. #B indsættes ligeledes på den viste position, med hullet drejet nedad, og med gevindstykket udad. Når de to trædele er skubbet sammen, indsættes #C i #B - og strammes.

GB Attach the leg to the table top by screwing #A to the position shown, with the hole turned so that it points towards the leg. #B is also inserted in the position shown, with the hole turned downwards, and with the threaded piece outwards. When the two wooden parts are pushed together, insert #C in #B - and tighten.

Step 4

DK Fastgør nu afstiverne ved brug af #D og #E på de viste positioner. Vær 2 om forsigtigt at vende bordet om. Vi anbefaler at du efterbehandler borpladen med et plejeprodukt inden brug!

GB Now mount the supporting pieces using #D and #E in the positions shown. Ask a friend to help you turn the table around. We recommend that you treat your new table with a wood care product before you start using it!

DK Har du købt en tillægsplade til dit bord, monteres denne med fingerskruer der drejes ved håndkraft.

GB If you have bought a leaf for the table, you can attach this by turning the thumbscrews by hand.
